

Beef & Pork Processing

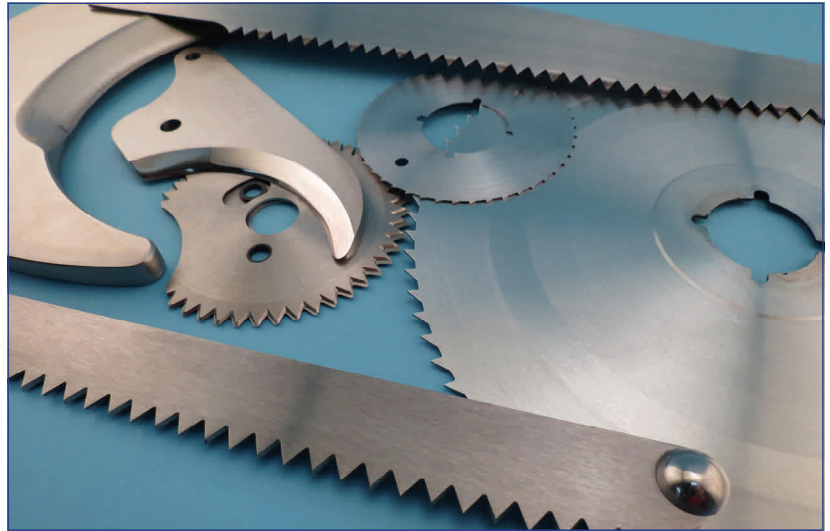

HYDE™

Industrial Blade Solutions

Hyde Blades For Beef & Pork Processing Make Short Work Of A Tough Job

What makes Hyde beef & pork processing blades perform beyond expectations? Start with the best grades of steel available. Laser cut the blank shape. Heat treat the blank to maximize the life of the cutting edge. Machine it to exacting tolerances. Then guarantee it's performance. Every Hyde blade is built with these values.

For just about any beef or pork processing application, Hyde has you covered. Send us your processing blade requirements or, if you like, we can help you design your own specific solution. With well over a century of machine blade experience, Hyde can assist you in reaching your desired results. Most quote requests are answered in 48 hours or less.

Prototyping is available upon request.

We stock many steel alloys in a variety of sizes to ensure we have material to meet your specific need in the most expedient manner. We'll quickly turn your beef or pork processing challenge into a Hyde solution!

Inventoried Material Types Include:

C-1095
52100
Chrome Vanadium
410 Stainless
420 Stainless
DIN 1.4112
17-4PH
and others

Beef & Pork Processing

HYDE™

Industrial Blade Solutions

Processing Blades and Knives designed for the toughest beef and pork cutting applications . . . when you've got to make the cut, cut it with Hyde!

If you eat it, a Hyde blade probably cut it! From beef to pork to lamb, whether primary processing or secondary processing, a Hyde blade was there cutting, slicing, dicing, slitting, snipping, chopping, helping speed that food from farm to table.

We work with a range of stainless steel grades and other alloys, in-stock to ensure the right grade of steel is on hand when you need it. Our in-house heat treat & temper means you are assured of blades that provide top performance consistently. And we back this all up with ISO 9001 certification - our promise of quality and trouble-free performance!

Hyde beef and pork processing blades are available in:

- Straight, toothed reciprocating blades - set or unset teeth, designed to fit just about any reciprocating style saw machine in the market
- Circular, toothed or beveled edge blades - set or unset teeth, single or double bevel edges, and just about any other edge configuration you may need - fits most all circular saw machines available
- Custom configuration - non-standard shapes are not a problem - whatever the blade design, odds are we can make it for you

A selection of some of the more common Beef and Pork Processing blades we manufacture include:

- Carcass cutters
- Bone cutters
- Hock cutters
- Jowl cutters
- Breaking blades
- Tongue cutters
- Splitting blades
- Brisket blades
- Dehider blades
- Scribe blades
- Chine blades
- Ribbing blades

Custom made blades available upon request—send us your drawing or print and let us quote your requirements. Remember, for all types of packaging, a Hyde blade can cut it!

Hyde Tools, Inc. is ISO9001 Registered

"We're always looking for better production. We need blades that won't shut us down ... and Hyde blades are up to the job!"
