BLADE SHARPENING SYSTEMS

The M400HS sharpening machine

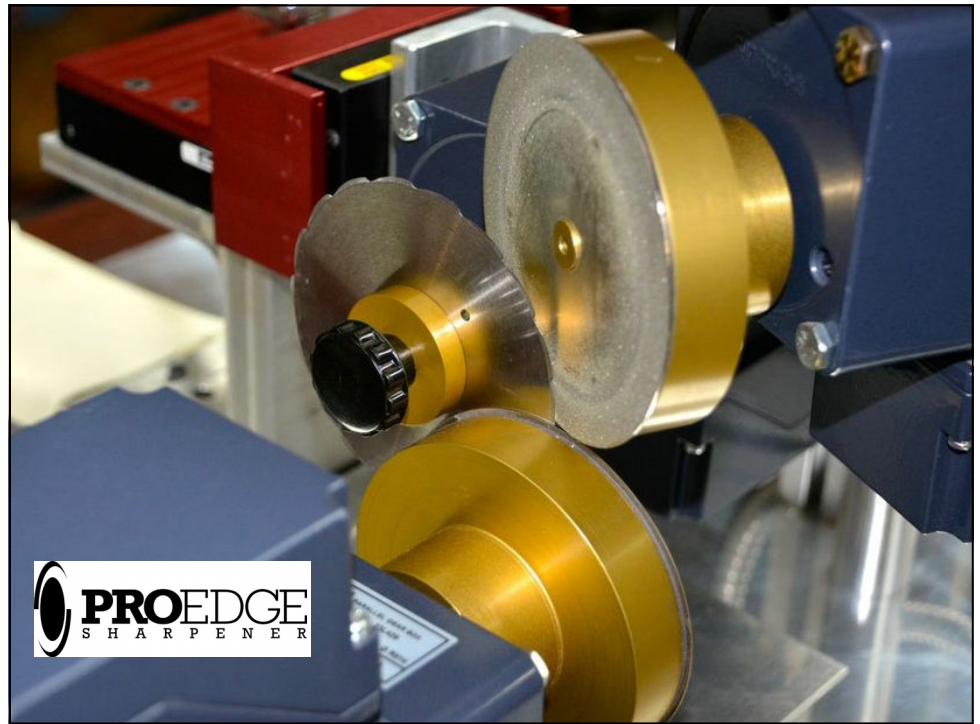

The bevel angle setting device

Standard tools and centers

**Now You Can Sharpen More, Remove Less
... And Do it Faster!**

The revolutionary M400HS high speed blade sharpening system has been designed with simplicity of use in mind. Now you can achieve professional blade sharpening results with minimal effort!

- ◆ Sharpens blades quickly while removing less steel
 - ◆ Industry's quickest machine for routine sharpening
 - ◆ Can sharpen severely rolled/chipped edges
- ◆ Quick sharpening disc change-over (literally less than 5 seconds)
- ◆ Reproduces an "as new" professional quality cutting edge
- ◆ Ball bearing linear slide self centers blades
- ◆ Produces a burr-free edge, single or double bevel
- ◆ Sharpens blades 100 to 400 mm, 0 to 32 degrees
- ◆ Direct drive (no belts or chains), precision slides
- ◆ Clean work area with no grinding wheel dust
- ◆ Safety interlock system disables machine
